CLUB NEWSLETTER October 2019

Ramblings. These computers are funny, my £ key stopped working as did my@ although " gave me @. Now after an update all is working again as it should. Just as well as people kept asking me what GBP and Sterling meant. I saw a unique sidecar outfit at Saltburn hill climb, a Vee twin Velocette very professionally done, could have been a factory machine. It's great to see that these home engineers still exist.

I wonder if I could make a vee twin Cyclenaster, after I have got the single working again. Speaking of my Cyclenaster project I need a little help does anybody have a right hand side choke lever they can spare as I need one to use as a hand throttle lever, would be very grateful could even mean some beer. We are nearly past harvest so machines on the road are less common but watch out for grain spills they are like ball bearings to bike tyres, also it is now ploughing so look out for ploughs when they turn in the plough swings out behind so be careful. Also there may well be lots of poo on the road as organic fertiliser is cheap and gets rid of all the poo stored up over the year. Enough of poo The observant among you , may have noticed that I have left out the usual adverts, that is because they added up to lots of Mb and pushed the file size up too high for some to receive by e mail I would be grateful if anyone can tell me how to minimise the Mb same as you can with photos

Barbeque . Look out for the date of the next BBQ to be held in the New year

Potholes!!! They are everywhere and ruining everyone's driving experience. So when you see one report it to the council then they have to repair it. This is a subject which drives me nuts as nobody seems to check the quality of the repairs which are generally based on chucking some cold set bitumen in the hole and tamping it down. No proper cutting out cleaning up and sealing of the edges. So they just fall to bits quickly. Good if you are getting paid to do the shoddy repairs.

THE END GAME

Some of us were chatting the other night and they were taking the Michael out of my latest project to restore a 67 year old Cyclomaster (if you don't recognize it try google),, I don't know why its younger than me & I am still going OK; being somewhat thick skinned I ignored the jibes and replied that I had always had a passion for tinkering with motors and bikes. This started from an early age and my current project has reminded me of those times

This is how and where the disease begins

We should encourage young or old talent as ideas, enthusiasm & ambition will always overcome lack of means

Send your piccies of trips ,days out & rideouts to both Allan Coverdale and Stephen Pratt for the club website& photo archive

No jokes this month. If you have any tasteful ones you could send them to me

There is no deadline...you either make the next issue or you don't! My contact details:
